

***Enriching an
Intelligent World***

***Enriching an
Intelligent World***

World-Leading Provider of Operating Systems and On-Device AI Products and Technologies

ThunderSoft has been continuously accumulating and innovating in the operating system field, with its business expanding gradually from smart phone to smart vehicle, AIOT and smart industries. It was successfully listed in 2015, which leads it to be China's first listed technical company specialized in the intelligent operating system. Till now, ThunderSoft has covered more than 40 cities around the world, with a total of over 15,000 employees.

Mission
Enriching an Intelligent World

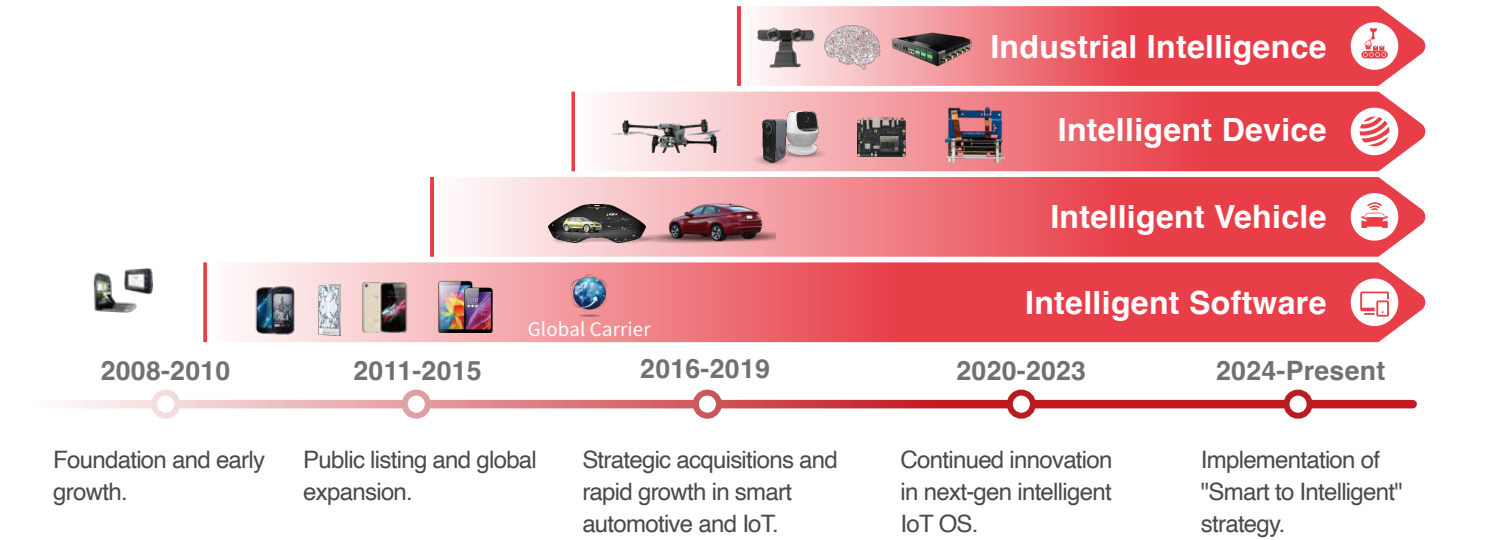

Vision
Empowering Every Device with Our Technology

Values

- Customer Focus
- Dedication as Essential
- Technology-Drivenness

Milestones

New Ventures

Vehicle Operating System

Aqua Drive OS

Modular Architecture

AI Native

Development Platform

Industrial Robots

Making logistics more convenient, manufacturing more efficient, and factories smarter

KNEW3OTS

Robotics AMR

Smart Factory Integration

Industrial Vision

Next-gen Intelligent IoT OS

WAVE

Good platform compatibility

Rich functional components

Open source

Our Key Offerings

Intelligent Vehicle

ThunderSoft empowered over 50 million smart vehicles

with cutting-edge technologies and a robust ecosystem, including: intelligent cockpit solutions, advanced vision systems, HMI toolchains, automated testing frameworks, and so on.

Learn more details

• SmartCockpit

- Digital Instrumentation
- Rear Seat Entertainment System
- IVI Infotainment System
- Personal Assistant

• Personal assistant

- Smart DVR
- FaceID/DMS/OMS
- AVM
- CMS

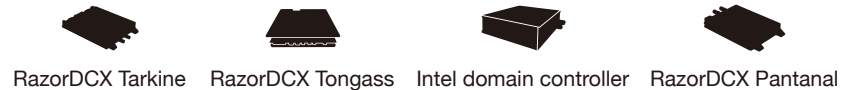

• KANZI[®] Automotive HMI Toolchain

KANZI[®] STUDIO
KANZI[®] FOR MCUS
KANZI[®] ENGINE
KANZI[®] MAPS

• Automated Testing Solution

- Information and Functional Safety Testing
- Vehicle Integration and Functional Testing
- Vehicle Roadside Testing and System Testing

• Domain Control Products

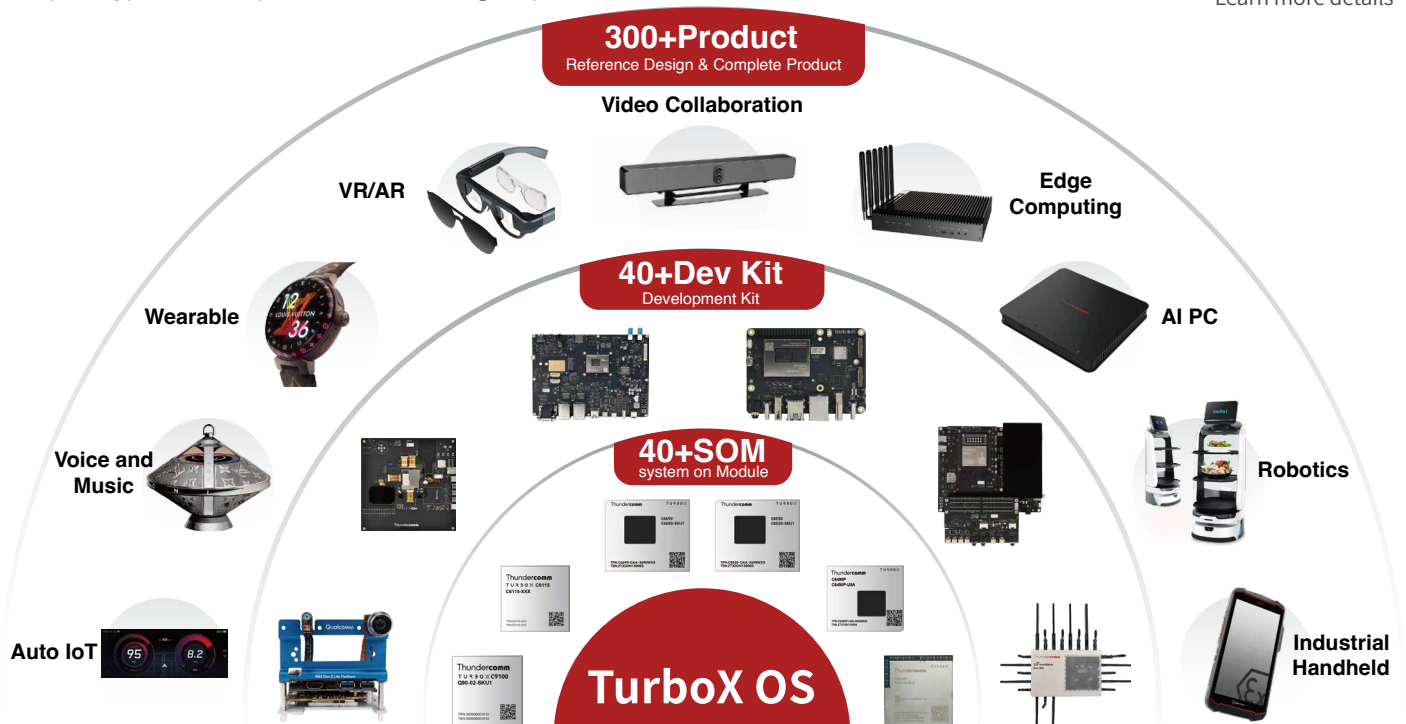

Intelligent Device

Empowering Over 60 Million Smart Devices

Harnessing the power of AI, 5G, IoT, and cloud computing, we deliver end-to-end solutions from modules to complete devices. Designed for OEMs, ODMs, and developers, our offerings accelerate the journey from prototype to mass production for intelligent products.

Learn more details

Intelligent Software

Empowering Over 1 Billion Connected Devices

Through strategic collaborations with global leaders like Qualcomm and Intel, we drive innovation across the value chain. Our offerings include proprietary IP licensing, end-to-end development solutions, and technical services tailored for chip, terminal, operator, software, internet, and component manufacturers.

Learn more details

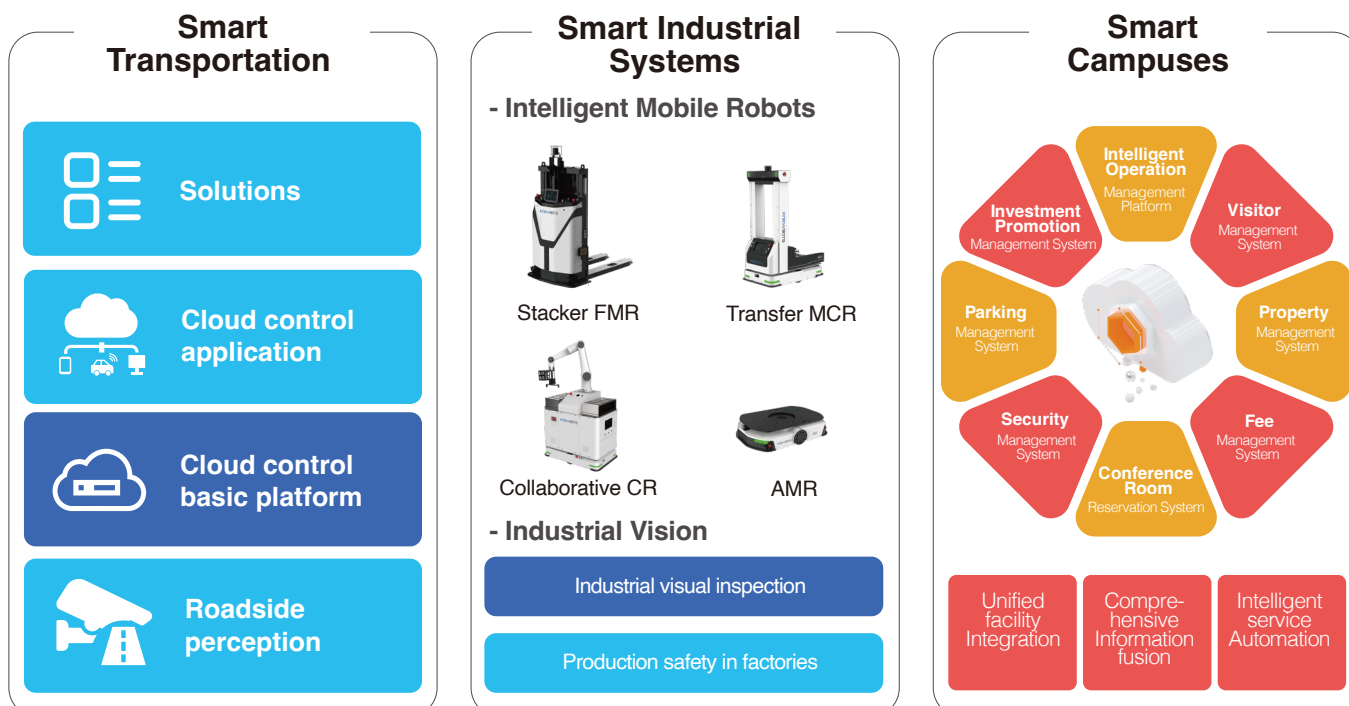

Industrial Intelligence

Built around advanced operating systems with deep integration of IoT, cloud computing, and AI technologies, ThunderSoft deliver one-stop edge-to-cloud solutions. These empower innovation in 15+ industry scenarios, including smart transportation, smart industrial systems, smart campuses, and smart retail, driving digital transformation and industry upgrades.

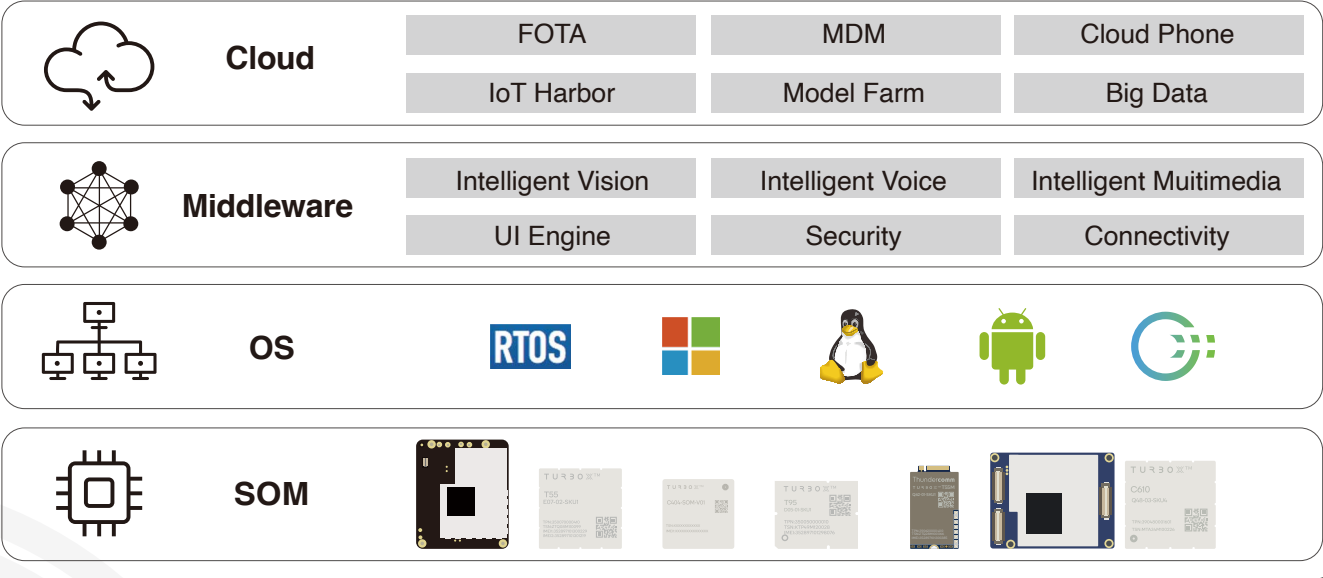

Learn more details

Technology Ecosystem

ThunderSoft provides full-stack operating system technologies from chip-level solutions to cloud services. Our comprehensive offerings include:

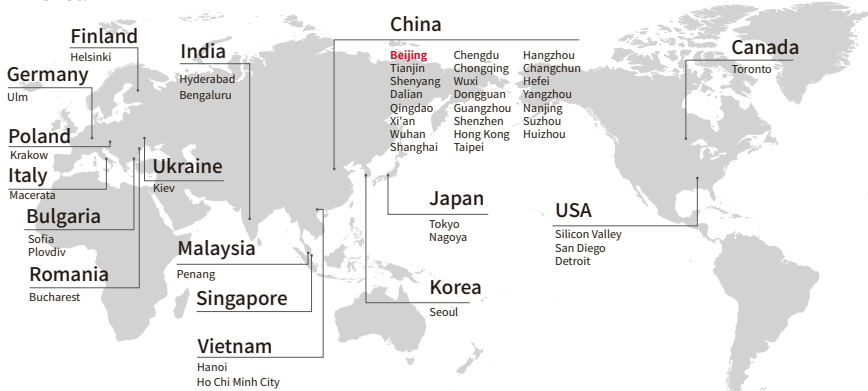

Strategic Partnerships

Our ecosystem partnerships span semiconductor companies, cloud providers, and application developers, driving innovation across the value chain.

Global Reach

Headquarters in Beijing, China, with delivery centers across Asia, Europe, and North America.

Certifications

 15000+ Employees
  90% Engineers
  40+ Cities
  2200+ Patents & Copyrights
